**Action Plan: HMP Wormwood Scrubs**  
**A Response to the HMIP Inspection Report**  
**Published 8 December 2017**

## INTRODUCTION

HM Inspectorate of Prisons (HMIP) is an independent inspectorate which provide scrutiny of the conditions for and treatment of prisoners. They report their findings for prisons and Young Offender Institutions across England and Wales to the Ministry of Justice (MoJ) and HM Prisons and Probation (HMPPS). In response to the report HMPPS / MoJ are required to draft a robust and timely action plan to address the recommendations. The action plan confirms whether recommendations are agreed, partly agreed or not agreed (see categorisations below). Where a recommendation is agreed or partly agreed, the action plans provides specific steps and actions to address these. Actions are clear, measurable, achievable and relevant with the owner and timescale of each step clearly identified. Action plans are sent to HMIP and published on the HMPPS web based Prison Finder. Progress against the implementation and delivery of the action plans will also be monitored and reported on.

Term	Definition	Additional comment
Agreed	All of the recommendation is agreed with, can be achieved and is affordable.	The response should clearly explain how the recommendation will be achieved along with timescales. Actions should be as SMART (Specific, Measureable, Achievable, Realistic and Time-bound) as possible. Actions should be specific enough to be tracked for progress.
Partly Agreed	Only part of the recommendation is agreed with, is achievable, affordable and will be implemented. This might be because we cannot implement the whole recommendation because of commissioning, policy, operational or affordability reasons.	The response must state clearly which part of the recommendation will be implemented along with SMART actions and tracked for progress. There <b>must</b> be an explanation of why we cannot fully agree the recommendation - this must state clearly whether this is due to commissioning, policy, operational or affordability reasons.
Not Agreed	The recommendation is not agreed and will not be implemented. This might be because of commissioning, policy, operational or affordability reasons.	The response must clearly state the reasons why we have chosen this option. There <b>must</b> be an explanation of why we cannot agree the recommendation - this must state clearly whether this is due to commissioning, policy, operational or affordability reasons.

Partly Agreed	<p>This recommendation is partly agreed as the implementation of the OMiC model is in two phases and it will not apply to all prisoners until the completion of the national roll out.</p> <p>The first phase is the introduction of key work to all prisoners. The second phase is a revised approach to case management where all prisoners who are high risk and/or are serving longer sentences will receive specialised offender management from skilled prison staff or probation officers. Partly Agreed	The recommendation is partly agreed as the segregation Prison Service Order 1700 does not state a time period regarding exercise, but makes it clear that the regime for segregated prisoners and access to activities, including exercise, should be comparable to those of a prisoner on normal location. The minimum daily exercise in the open air requirement for prisoners on normal location of 30 minutes as set out in Prison Service Instruction (PSI) 75 / 2011 Residential Services, equally applies to those who have been segregated. This provision is mandatory subject to weather conditions and the need to maintain good order and discipline.	Governor	Completed

	<b>Staff-prisoner relationships</b>				
5.16	Wing-based staff should have enough capacity to be able to manage prisoners safely and provide them with ongoing support.	Agreed	The first phase of the implementation of the OMiC model will enable this recommendation to be achieved. The key work role will be carried out by all residential prison officers to provide individual day-to-day support to prisoners to assist them in feeling safe, secure and calm. Agreed	<p>A tracker of actions to formal complaints will be created, to manage and review; to ensure implementation and the complaint followed through.</p> <p>Care UK will ensure the concerns and complaints policy is correctly implemented, by having an enhanced site specific process that enables delivery of the policy.</p> <p>This will be audited on a quarterly basis, with a random 5% of correspondence reviewed for its accuracy and response to the original complaint. Shared learning will be undertaken on a monthly basis, through group Clinical Supervision.
